New York
Stock Market

New York, March 12.—For a time after the opening of the stock market today the upward movement of the previous session was continued. London again sent over higher quotations for American stocks and there was considerable buying in this market for foreign account.

Covering of short contracts contributed to strengthen and many standard issues were marked up a point or more. The demand was not keen, however, and after the first hour the market began to slip backward. Early in the day, when the market was still in the upward movement, the list was forced below yesterday's close. Financial conditions here and abroad again exerted a large influence on the stock market. Call money rose to 6 percent, the highest rate since the start of the year. For the money, 5 1/2 percent was offered for all maturities, but even these bids failed to bring out large offerings. The money market was influenced by reports of a poor bank statement on Saturday.

It was reported that negotiations were under way for shipment of \$5,000,000 gold to Berlin. German bankers and a group in this market for accommodations over the end of the month. Houses with German connections, however, said the advances indicated the financial pressure in Germany had about reached its maximum.

Prospects of further extensive gold exports were lessened by a pronounced slump in foreign exchange rates. Demand sterling broke 20 points. Some of the inactive stock groups advanced 1/2 to 1 point on the decline. American Sugar broke 3 points from its price on publication of an annual report showing a large decrease in earnings. Goodrich was particularly weak, the common falling over 8 points, and the preferred 5 1/2.

The bond market reacted after an early display of firmness. Total sales, par value, \$2,190,000. Panama 3's advanced 1-8 on call.

New York, March 12.—Money on call 1/4-1/2, closing bid, 5/8; offered at 5/12. Time loans strong; sixty and ninety days, 5 1/2 percent; six months, 5 1/2 to 6 percent. Prime mercantile paper, 5 1/2 to 6 percent. Sterling exchange weak, with actual business in bankers' bills, at \$18.75 for sixty-day bills, and at \$18.70 for demand. Commercial bills, \$2.00. Bar silver, 60 cents. Government bonds firm, railroad bonds irregular.
